

CellBlock LIBIK EHS Kits

Fire Extinguishing Tools Within Reach

Your Ultimate Tool Kit for Fighting Battery Fires

Our Wall-Mounted LIBIK EHS Kit

allows for the fastest possible deployment of fire suppression tools and safety equipment. Easy access to the LIBIK and its contents makes it ideal for laboratory environments, hospitals, schools, offices, and manufacturing settings.

PED-Pad Fire Suppression Pillow

- A quick and concise method of extinguishing a lithium-ion battery fire, while decreasing risk to the fire-fighter and reducing interaction time.
- Place over flame to release the inner CellBlockEX, our industry trusted and proven extinguishing agent used for fighting lithium-ion battery and device fires.
- CellBlockEX is mineral-based, entirely environmentally-friendly and non-toxic.

Fire Shield Blanket

- Provides an impervious barrier between the fire fighter and the burning device and increases the suppressive effect of the PED-Pad pillow.
- Constructed from robust fire resistant fabrics that have undergone rigorous testing.

CellBlock High Heat Gloves

- These durable, high-dexterity gloves are designed to protect the user when approaching overheating devices.
- Manufactured using composite textiles made to withstand extreme temperatures.

Simple Instructions

- Ease of use provides accessibility to all employees.

LBKEHS01 Basic Lithium-Ion Battery Incident Kit For batteries and devices up to 180 Wh

- High-Heat Gloves
 - Standard 36" x 36" Fire Shield Blanket
 - 12" x 12" x 2" PED-Pad Pillow
 - Wall-mount Bracket
- Choose from Red or Blue

LBKEHSHW02 High Watt Hour Lithium-Ion Battery Incident Kit For batteries and devices up to 1000 Wh

- High-Heat Gloves
 - High Watt Hour 36" x 36" Fire Shield Blanket
 - 16" x 12" x 3" PED-Pad Pillow
 - Goggles
 - Wall-mount Bracket
- Choose from Red or Blue
